## DETAILED ACTION

### EXAMINER'S AMENDMENT

1. The Applicant's representative was telephoned in order to get permission to amend the specification for some irregularities about correct reference numerals and claim 7 for deleting an inappropriate word from the claim language.
2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Howard R. Popper on April 22, 2004.

The Title has been changed to: "Method of making DBR Grating".

The application has been amended as follows:

The Title has been changed to: "Method of making DBR Grating".

In specification, page 5, line 12, following the word "P-metal", delete "1301" and insert -- 1201 --.

In specification, page 5, line 12, following the words "contact layer", delete "110" and insert -- 109 --.

In claim 1, line 16, following the word "protective", delete "coating" and insert -- layer --.

In claim 7, line 4, following the phrase "...is removed,", delete "a wet" and insert -- an --.

***Allowable Subject Matter***

3. Claims 1 – 10 are allowed.

4. The following is an examiner's statement of reasons for allowance:

Claims 1 – 10 recite, inter alia, a method of forming a DBR grating on a semiconductor wafer comprising the steps of depositing a protective layer, removing the protective layer from a portion of the cladding layer and removing the remainder of the protective layer prior to depositing additional layers. Although, Bodere, US 5,817,537 and Naya, US 6,334,367 teach a method of forming a DBR grating, they fail to teach the above limitations. Additionally, the art of record does not disclose or anticipate the above limitation in combination with other claim elements nor would it be obvious to modify the art of record so as to form a device including the above limitation.

***Conclusion***

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Asok K. Sarkar whose telephone number is 571 272 1970. The examiner can normally be reached on Monday - Friday (8 AM- 5 PM).
